INTRODUCTION:

History of Stanislaus County California with Biographical Sketches of the Leading Men and Women of the County who Have Been Identified with Its Growth and Development From the Early Days to the Present.

This history by George H. Tinkham, published by Historic Record Company, Los Angeles California in 1921 is the definitive Stanislaus County History. Originally published in one very large volume of 1498 pages, it was reproduced in 1979 as a 2 volume set. The integrity of the pagination was kept intact.

Because of the thousands of names included in articles of events and organizations as well as in the biographical sketches it was decided that this work deserved and needed an every name index.

In the volunteer spirit of the Genealogical Society of Stanislaus County, as soon as the project was defined the work began. Geri Moser listed each name from the book, later inputting to the computer. Robert Moser set up the computer style and format as well as doing the printing. Wayne Hasemeier did the proof reading. They are a great team. Many thanks are due to these three hard working volunteers. You are what make our Society great.
